KING CROWNED.

Edward VII of England Wears the Crown of His Ancestors.

All the Pomp of Ancient Tradition Was Put in Use Saturday Aug. 9.

London, Aug. 9.—With all the pomp and pageantry imposed by tradition, and with all the attendant marks of splendor for which London has been for months preparing, the splendid crown of Great Britain was today placed upon the

brow of Edward, seventh of his name to bear the title of King of England.

Westminster Abbey was thronged with notables, all nations of the world being represented in glittering panoply. The King's full convalescence was assured by the firmness with which he bore himself through the long and necessarily arduous ordeal although in deference to his recent illness a number of important changes had been made in the coronation program, materially reducing the length of the ceremony as originally planned.

The big spectacle for the general public was the coronation procession. The streets along which the imposing pageant passed were densely packed, many persons hav-

District Committee Met at Dawson Springs Last Saturday.

The Democratic Committee of the Second Congressional District met at Dawson Springs Saturday to make the final canvass of the votes cast in the recent primary election. All of the members were present in person or by proxy except Mr. T. A. Pedley, of Owensboro.

The official figures were as follows:

COUNTY.	S.	B.	T.
Christian	302	1115	455
Daviess	524	44	332
Henderson	98	2966	43
Hancock	2197	243	281
McLean	154	4	427
Union	546	363	304
Webster	1118	484	528
Total	6197	5591	5570

The total expenses of the primary were found to have been \$1,880, or \$235 to the county, or about \$11.00 to the precinct. Seals and linen envelopes were not used, except in counties where they could be borrowed. Ballot boxes and booths were also borrowed. Officers were paid \$1 each and but little was paid for mileage. The officers appointed were notified by mail instead of by the sheriff of the county, and strict economy was observed. Daviess and Webster counties expended all of their allowances, the other counties saved enough to return \$120.00 to the candidates—\$40 each.

Mr. Stanley, the nominee, was not present, but sent the following letter:

GENTLEMEN OF THE DEMOCRATIC COMMITTEE OF THE SECOND CONGRESSIONAL DISTRICT:

Dear Sirs—I deeply regret that it is impossible for me to meet you on this auspicious occasion. The serious strain of the campaign has rendered it absolutely necessary that I should take, without delay, a much needed rest.

"I wish, through my esteemed and trusted friend, Mr. Powell, to thank you, and through you the Democracy of the Second Congressional District for the high honor conferred upon me. I shall, in my humble way, endeavor to prove worthy of the trust imposed.

Very Sincerely Yours,

A. O. STANLEY.
Mayor J. H. Powell, of Henderson, the bearer of this message, then briefly addressed the committee, accepting the nomination for Mr. Stanley and reiterating his thanks.

Mr. John B. Brasher also appeared before the committee and gracefully accepted his defeat and pledged himself to do all he could to elect his successful opponent by a big majority. It was a manly, patriotic speech and showed that Mr. Brasher is under all circumstances a true and loyal Democrat.

The committee before adjourning adopted a resolution thanking Chairman Chas. M. Meacham and Secretary D. W. Gatlin for their efficient and impartial services in conducting the primary election to the satisfaction of all the candidates.

GARLAND-TRIBBLE.

Popular Young Christian County Farmer Weds Henderson Woman.

Mr. Charles R. Garland, a popular and very successful young farmer, of near Casey, and Miss Carrie Tribble, a charming young woman of Henderson, were united in marriage at 4 p. m. last Thursday in Nashville. Mr. Garland and his bride left immediately for Red Boiling Springs, Tenn., to spend ten days.

On their return they will make their home with the groom's mother.

Mr. W. S. Perkins has gone to Oklahoma to join her husband, who left for the West some time ago.

BAXTER TONIGHT.

President of Tennessee Central Will Visit Hopkinsville.

Citizens' Meeting Called to Welcome Him at the Court House.

President Jere Baxter, of the Tennessee Central Railroad, will meet the citizens of Hopkinsville in the circuit court room tonight. Mr. D. G. Carpenter, who looks after the right of way for the road, was in the city Friday and Saturday. H. H. Abernathy, secretary of the Commercial Club, has made the following urgent call to the citizens:

"Jere Baxter, president of the Tennessee Central Railroad, will be here Tuesday night, Aug. 12, and will consult with us at the court house at 8 o'clock. Everybody who is interested in the welfare of Hopkinsville is urged to attend this meeting. This road will be built through Christian county. We can get it or we can sit still and miss it. Now, what will you do? If we get it, we cannot measure the benefit. If we miss it, we cannot measure the damage. If we want it, let us put our shoulder to the wheel and give the pliancy they may want. Be sure and come to the meeting in the circuit room at 8 o'clock Tuesday night."

A large crowd is anticipated for this meeting, as the town nearly as a whole is very anxious for this city to be the terminus of the Tennessee Central, and it is very likely that the matter will be definitely settled at the meeting tonight.

FEVER VICTIM.

Sam Hayes Dies After a Brief Illness.

Mr. Samuel Hayes, engineer for the Acme Mills Company, died at his home on 1st St. Friday night after an illness of only a few days of typhoid fever. He was 24 years old. The funeral was held at his late residence Saturday afternoon and the interment took place in Hope-well cemetery.

It is given out that the final decision has been made that Pratt and not Yerkes will be the Republican candidate for Governor next year.

GARTH-RUSSELL.

Prominent People of Trenton Married in Nashville.

G. B. Garth and Miss Eunice Russell, C. E. Russell and Miss Nellie Carpenter arrived in Nashville Sunday from Trenton and Elkton, Ky. The purpose of the visit was the marriage of Mr. Garth and Miss Russell. License had to be procured which was difficult on Sunday and Presbyterian ministers were scarce. Rev. J. C. Cowan, however, was found and an impressive ceremony was performed in the Maxwell House parlors in the afternoon. The desire of the couple was to have the ceremony perfectly quiet so that only one person was present—S. A. Cunningham. This news of the wedding will be a surprise to their friends as the engagement had been kept a secret—American.

BLAZE ON VIRGINIA.

Hord Block Badly Damaged by Fire Thursday Night.

The store of Henry King, in the Hord block, was partially destroyed by fire last Thursday night. Mr. King left a lamp on the scales in the rear room, used for storing feed stuff, and the suppositions that the lamp either fell or exploded. Mr. King's loss on stock is probably \$500. The store house belonged to Mr. J. G. Hord and this was damaged to the extent of several hundred dollars.

The grocery stock of Williams & Walker, in an adjoining building, was also considerably damaged by smoke and water and Mr. Hord's stock in the same block was considerably damaged. The losses are covered by insurance.

OF HENDERSON COUNTY.

RICHARDSON'S LAST STAND.

The Glasgow Times, one of the earliest and ablest advocates of a state primary election, has undertaken the hopeless task of answering satisfactorily the several objections recently presented by the KENTUCKIAN.

The first of these was that the party would have no platform of principles without a convention to formulate one.

The Times admits that this is an obstacle at least worthy of notice and proposes this remedy:

"The first of these objections is met by the suggestion that when each precinct primary is held, the Democrats there assembled vote on the question of platform; then let a delegate county convention be held which shall frame a declaration for the whole county. After all the 119 counties of the State have acted, let the state committee meet and frame a state platform in obedience to the expressed wishes of a majority of the party platforms. Or, let the different counties send delegates to a state convention empowered to deal solely with platform and organization."

The plan proposed is unworthy of serious consideration. An election is in progress for ten hours and the law prohibits the assembling of a crowd in the "pool-room or within fifty feet of it at any time during election hours. A precinct convention held as proposed would have to be apart from the election and the 7,000 election officers, and the official challengers with them, would, of course, be debarred from participating in the 1,900 conventions to be held. Furthermore this plan would delegate to the inexperienced the preparation of a platform of principles to be assumed by the opposition upon every stamp in the State. This work is usually entrusted to the ablest party leaders, who have studied the issues of the day and are qualified to prepare a platform that will strengthen the party and often sound the keynote of an approaching national campaign. All of this would be changed and the precinct convention in Wayback county, in which Prof. Jones, the school teacher, was the only man qualified to act as clerk of the election, would be called upon to write a platform while the Professor was busy inside. This platform, with 1899 others made in the same way, would have to be condensed into a composite document after a commission of experts from the state committee had figured out what a majority of them meant. The very suggestion is enough to excite derision. It would impose upon the state committee duties entirely

There is now Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly tampering with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. KENTUCKY WHISKY

for Gentlemen who desire Quality.

Sold by W. R. Long, Hopkinsville, Ky.

The new constitution of the primary law. Seeing the opportunities for fraud in primaries, so palpable that the law itself provides for the prevention of the same, the conventions of 1890, 1899 and 1900 tied the hands of the State committee, making it impossible for the party's governing authority to depart from the time honored methods of nominating candidates. It is absolutely necessary for parties to hold State conventions at least every four years. Platforms must be prepared by leaders competent to write them. Committees must be selected to constitute the governing authority of the party. Candidates must be nominated who are the choice of a majority of the people's representatives.

The Democratic party is founded upon the underlying principle of majority-rule. It is the enemy of rings, cliques and combines. In Christian County last year a set of Republican office-seekers, some in office and others outsiders formed a combine, had their names printed on a common ticket and agreed to stand or fall together in a primary election. Of course the political trust swept all opposition aside and though they succeeded, they drove 600 voters from the Republican party. With a primary election to nominate State officers it would be possible for a slate to be made up, a ticket arranged under a common device, and the Democratic party wrecked by a political trust, while the party organs were stultifying themselves in fighting trusts.

It would be possible for the gamblers and other criminal classes, who defy law and public sentiment and laugh at the constitution, to obtain recognition on such a ticket and nominate unworthy men, who could never win in a convention where a majority, and not a bare plurality, would be required to nominate.

It is indeed fortunate for the party that there is no authority vested in the State committee to order a primary election.

ON THE SIDE OF THE PEOPLE.

The New Era, in its issue of Saturday, contributes another chapter to the telephone franchise discussion, using again the same arguments that proved so effective with the Council, that the Cumberland had a plurality of franchisees and that the people were clamoring for a monopoly in telephone service, with the Cumberland at the helm dictating its own terms.

As we have heretofore proven by the records, the Cumberland no longer has a franchise in Hopkinsville, and all argument based on a faulty major premise is of course illogical and false.

In Feb. 1882 a permit was given the East Tennessee Telephone Company to use the streets of Hopkinsville for its poles and wires.

It was not a franchise, not even an ordinance. A simple permit, which was withdrawn five years later and the poles ordered down.

This was done July 5, 1887, and at the same meeting a franchise was granted to S. H. Turner and others, which after investigation was confirmed and made exclusive Aug. 2, 1887, for a period of 15 years.

This franchise, subsequently sold to the Cumberland company, has expired.

If the Cumberland is attempting to exercise the privileges of a franchise under a permit that, like its Blake instruments, has long been obsolete, then it is attempting to ignore an ordinance declaring the poles of the East Tennessee Company a nuisance. But that defunct company has had no rights to transfer for 15 years. It never had a lawful franchise. If its franchise had been lawful and had been repealed, it would have been ceased by constitutional law six months ago. No franchise can be for longer than 20 years, and after six years all corporations are compelled to accept the provisions of the constitution. The new constitution has been in effect for more than six years and viewed from any standpoint the Cumberland's franchise has expired and it cannot get an other without conforming to the law and constitution, which has not been done; the attempt made to perpetuate its monopoly in the city at an expense of \$4,000 to \$5,000 a year to the people.

The Cumberland being without legal standing in the city, no amount of argument can justify the rejection of the Mott franchise in its interest.

That franchise the council had

been petitioned to sell by 400 or 500 of their constituents. The petition was acted upon, the councilmen stated that they obeyed the will of the people, the franchise was sold, the money paid, the bond tendered, and then the council arbitrarily refused to confirm the contract that the people had demanded.

If they were misled by the Cumberland's "general counsel and other attorneys" who were ignorant of the facts, they should hasten to set themselves right and give the people what they have said over their signatures they wanted. The constitution prohibits an exclusive franchise and it is not for the council to deny what the constitution grants. The people know whether or not they want competition, which everywhere regulates trade. We are faring better with two railroads than we did with one. We are saving money by having two ice factories instead of one. There is competition in every line of trade and why should the council deny the people the right to choose between a good and a bad telephone system? The newspaper or the attorney that advocates a monopoly is not looking after the interest of the people. The people know what they want. In 1879 the New Era bitterly opposed the establishment of free schools. The people knew what they wanted and voted against the New Era's advice. Who was right then? The people have for years been working for a public building and the New Era, a few days ago, came out opposing this public improvement, that would be a blessing to the city. In spite of this unprogressive spirit, the people of Hopkinsville will not be discouraged by this opposition of a paper that ought to help rather than handicap its town and sooner or later we will have a public building.

Now comes the same paper advocating the shutting out of a public benevolence and improvement that would save \$4,000 a year for the people and bring to the city an enterprise that would give employment to many men and girls.

Upon the same idea that we have railroads enough, it would be just as consistent for the New Era to oppose the advent of the Tennessee Central, which is even now asking the privilege of entering the city. The gentlemen on the Council have not been attacked. They need no defense from the Cumberland's attorney. They need only to do a little more thinking and a little more investigating for themselves to avoid being misled. Be careful gentlemen from this "general counsel" you accept advice. Perhaps your advisers may have selfish motives and "When sell the trembling balance holds."

"Is rarely well adjusted."

The soldiers in camp at Mammoth Cave seem to be doing their best to make themselves solid with the commander-in-chief.

According to the Courier-Journal, much attention is being paid to craps shooting, a form of gambling that has been quite popular under the present administration. A serious row was narrowly averted Saturday because some disciples of Alvey from Louisville made the mistake of "shooting" with loaded dice. They were roughly handled and had to get out of camp. It is hardly likely that any visitor will have the temerity to again use loaded dice in the State encampment. The gambling must be strictly fair and according to Hoyle, or it will not be tolerated.

The Battery A. and Battery B. boys were the ones who battered the strangers who would not play a fair game. The Courier-Journal follows its history of the fight with this paragraph:

The two batteries to remain in camp until Friday or Saturday instead of going home Wednesday, as originally intended. The Governor thinks that the presence of the veterans and the well-drilled Battery A is a good thing."

Of course the political trust swept all opposition aside and though they succeeded, they drove 600 voters from the Republican party. With a primary election to nominate State officers it would be possible for a slate to be made up, a ticket arranged under a common device, and the Democratic party wrecked by a political trust, while the party organs were stultifying themselves in fighting trusts.

It would be possible for the gamblers and other criminal classes, who defy law and public sentiment and laugh at the constitution, to obtain recognition on such a ticket and nominate unworthy men, who could never win in a convention where a majority, and not a bare plurality, would be required to nominate.

It is indeed fortunate for the party that there is no authority vested in the State committee to order a primary election.

ON THE SIDE OF THE PEOPLE.

The New Era, in its issue of Saturday, contributes another chapter to the telephone franchise discussion, using again the same arguments that proved so effective with the Council, that the Cumberland had a plurality of franchisees and that the people were clamoring for a monopoly in telephone service, with the Cumberland at the helm dictating its own terms.

As we have heretofore proven by the records, the Cumberland no longer has a franchise in Hopkinsville, and all argument based on a faulty major premise is of course illogical and false.

In Feb. 1882 a permit was given the East Tennessee Telephone Company to use the streets of Hopkinsville for its poles and wires.

It was not a franchise, not even an ordinance. A simple permit, which was withdrawn five years later and the poles ordered down.

This was done July 5, 1887, and at the same meeting a franchise was granted to S. H. Turner and others, which after investigation was confirmed and made exclusive Aug. 2, 1887, for a period of 15 years.

This franchise, subsequently sold to the Cumberland company, has expired.

If the Cumberland is attempting to exercise the privileges of a franchise under a permit that, like its Blake instruments, has long been obsolete, then it is attempting to ignore an ordinance declaring the poles of the East Tennessee Company a nuisance. But that defunct company has had no rights to transfer for 15 years. It never had a lawful franchise. If its franchise had been lawful and had been repealed, it would have been ceased by constitutional law six months ago. No franchise can be for longer than 20 years, and after six years all corporations are compelled to accept the provisions of the constitution. The new constitution has been in effect for more than six years and viewed from any standpoint the Cumberland's franchise has expired and it cannot get an other without conforming to the law and constitution, which has not been done; the attempt made to perpetuate its monopoly in the city at an expense of \$4,000 to \$5,000 a year to the people.

The Cumberland being without legal standing in the city, no amount of argument can justify the rejection of the Mott franchise in its interest.

That franchise the council had

been petitioned to sell by 400 or 500 of their constituents. The petition was acted upon, the councilmen stated that they obeyed the will of the people, the franchise was sold, the money paid, the bond tendered, and then the council arbitrarily refused to confirm the contract that the people had demanded.

If they were misled by the Cumberland's "general counsel and other attorneys" who were ignorant of the facts, they should hasten to set themselves right and give the people what they have said over their signatures they wanted. The constitution prohibits an exclusive franchise and it is not for the council to deny what the constitution grants. The people know whether or not they want competition, which everywhere regulates trade. We are faring better with two railroads than we did with one. We are saving money by having two ice factories instead of one. There is competition in every line of trade and why should the council deny the people the right to choose between a good and a bad telephone system? The newspaper or the attorney that advocates a monopoly is not looking after the interest of the people. The people know what they want. In 1879 the New Era bitterly opposed the establishment of free schools. The people knew what they wanted and voted against the New Era's advice. Who was right then? The people have for years been working for a public building and the New Era, a few days ago, came out opposing this public improvement, that would be a blessing to the city. In spite of this unprogressive spirit, the people of Hopkinsville will not be discouraged by this opposition of a paper that ought to help rather than handicap its town and sooner or later we will have a public building.

Now comes the same paper advocating the shutting out of a public benevolence and improvement that would save \$4,000 a year for the people and bring to the city an enterprise that would give employment to many men and girls.

Upon the same idea that we have railroads enough, it would be just as consistent for the New Era to oppose the advent of the Tennessee Central, which is even now asking the privilege of entering the city. The gentlemen on the Council have not been attacked. They need no defense from the Cumberland's attorney. They need only to do a little more thinking and a little more investigating for themselves to avoid being misled. Be careful gentlemen from this "general counsel" you accept advice. Perhaps your advisers may have selfish motives and "When sell the trembling balance holds."

"Is rarely well adjusted."

The soldiers in camp at Mammoth Cave seem to be doing their best to make themselves solid with the commander-in-chief.

According to the Courier-Journal, much attention is being paid to craps shooting, a form of gambling that has been quite popular under the present administration. A serious row was narrowly averted Saturday because some disciples of Alvey from Louisville made the mistake of "shooting" with loaded dice. They were roughly handled and had to get out of camp. It is hardly likely that any visitor will have the temerity to again use loaded dice in the State encampment. The gambling must be strictly fair and according to Hoyle, or it will not be tolerated.

The Battery A. and Battery B. boys were the ones who battered the strangers who would not play a fair game. The Courier-Journal follows its history of the fight with this paragraph:

The two batteries to remain in camp until Friday or Saturday instead of going home Wednesday, as originally intended. The Governor thinks that the presence of the veterans and the well-drilled Battery A is a good thing."

The Agricultural and Mechanical (State College) Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Entomological, Physiological, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering and Mining Engineering, each of which extends over four years and leads to a degree. Post-graduate courses of study are also provided, leading each to master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than forty professors and instructors.

County Appointees receive tuition, room rent, dormitory expenses, fuel and lights, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The last and the preceding Legislatures appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men.

Military tactics and science are fully provided for and required by Congress.

Graduated from the several courses of study readily find excellent positions and liberal remunerations. The demand is largely in excess of the ability of college to supply.

Last year the matriculation list was 594.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting reports and the presentation of current events in their just proportion. They comment on its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are by the best-informed writers. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value to them:

PRESIDENT. "I know that through his columns views have been presented to me that I could not otherwise have had access to; because all current and thoughtful men, no matter for how widely their ideas diverge, are given free utterance in its columns."—*Theodore Roosevelt*

EX-PRESIDENT. "I consider it a very valuable addition to my library."—*Grever Cleveland*

"It is a publication of very great value. I have sometimes found there very important matter indeed which I should not otherwise have discovered."—*Gov. F. D. Ives, U. S. Senator, Massachusetts*

INDIAN EDUCATION

Dionicio Chico, a native of the southern part of Mexico, has been educated in the United States.

Could the records of the California State and the Indian in this country be traced, the complete story of their ancestors' origin and experiences, it would be a most interesting and modern romance. Some have obtained a longevity so remarkable that they distinctly remember the times of the desperate tribal wars, of overwhelming floods and destructive earthquakes. Of such Dionicio Chico, belonging to the Dieguenos, dwelling in

DIONICIO CHICO
(Oldest Living Indian and His Friend, Capt. Anderson.)

the most primitive human habitation in the valley is probably its oldest inhabitant.

Twenty-six years ago, says N. H. Chittenden in the Los Angeles Herald, when I first rode into the old Mexican village of Agua Mansa, about four miles from Colton, on the banks of the Santa Ana, he was nearly 90 years of age.

Possessing extraordinary strength in his younger days, and personal courage to match, he was the victor in many combats of war and with love rivals. In one of these furious encounters of more than 70 years ago his antagonist also an Indian of great power, bit off one of Dionicio's thumbs.

For many years during the exclusive occupation of southern California by the herds and flocks of the mission fathers and of the Spanish grantees of extensive domains, Dionicio was the principal vaquero on the extensive ranch of Paso Trujillo. But the oldest American settler of 30 years ago remember him as then too far advanced in years for such service, and when compelled to retire therefrom he built of poles, reeds and mud the little hut in which he has lived ever since. Once or twice a week, carrying his ration sack, he visits his wife's friends in Colton, who furnish him with provisions. For nearly ten years a kind-hearted Portuguese woman, Maria Guala, has taken him at her home whenever he comes to town.

DR. FRANK BILLINGS.

New President of American Medical Association is a Well-Known Chicago Physician.

Dr. Frank Billings, who has just been elected president of the American Medical Association at the convention in Saratoga, N. Y., has been known among Chicago's medical practitioners and educators nearly 20 years. He was graduated from Chicago Medical college, now the med-

ical department of Northwestern University, and, after a year spent as an internist at the Chicago hospital, engaged in post-graduate work at Vienna and Paris. Returning to Chicago, he accepted the chair of professor of medicine in Chicago Medical college, resigning to accept a similar position with Rush Medical college. He is now the dean of the latter college and the head of its medical department. He is also attending physician to the Presbyterian and Cook county hospitals. His contributions to current medical literature have given him a national reputation.

Streets Paved with Glass.

Streets paved with glass are not by any means unknown. The famous Rue de la Republique at Lyons is a notable example. Here the pavement is laid in glass blocks, eight inches square, which are so symmetrically fitted together as to prevent the possibility of water passing between the interstices.

Houses in Australia.

There were 25,500 houses in Australia in 1901; now there are 476,000. There is a great increase in the number of houses.

Fishing, how hard was it for me, one, but for the sake of my health, the least tendency to bronchitis is dangerous, because of the small particles of dust and chaff which are inhaled and irritate the throat.

Bronchitis and other diseases of the organs of respiration are cured by the use of Dr. Pierce's Golden Medical Discovery. This great remedy is not to be classed with common cough medicines, which are mainly opiates. There is no opium in "Golden Medical Discovery," and it is entirely free from cocaine and all other narcotics. It is a non-alcoholic and non-narcotic medicine. It heals the inflamed tissues, cures obstinate, deep-seated coughs, bleeding lungs and other conditions, which, if neglected or unsuitably treated, terminate fatally in consumption.

"I wrote to you for advice and you advised me to take Golden Medical Discovery" and "Pleasant Pellets," which I did, and to my surprise got well," writes Mr. Joseph A. Vallery of Farmington, N. H. "I had what the doctors called bronchitis, and whenever I would take cold would suffer greatly, but since taking two bottles of Dr. Pierce's Golden Medical Discovery and one bottle of his 'Pleasant Pellets' have been cured of that terrible trouble. Before taking your medicine I weighed one hundred and twenty pounds; now weigh one hundred and thirty."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains, you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pellets cleanse the system from accumulated impurities.

Coal Office Removal.

I have moved by coal office to the Underwood yard on the L. & N. R. R., near "Acme Mills."

I take this method of thanking you for the business you gave me last season. I certainly needed it, and as a friend, need is a friend indeed! I certainly appreciated it. I am in much better position to serve you now, as I have made my arrangements to sell the best coal on the market. I have had my scales cleaned and tested as the following certificate of which this is a copy, is held by me and posted at my office.

Louisville, Ky., June 11, 1902. "We have this day tested this scale and the same is correct."
Fairbanks, Morse & Co.
Signed, Geo. B. Woodware, Agt.

When I sell you "lump" coal you get lump coal and not "mixed" coal, and the other grades the same way. I am in the coal business to stay and expect to make my living out of it. I want your trade. I will appreciate it. I will treat you honestly. If you want your coal house filled new is the time to see me.

Very truly yours,
H. H. ABERNATHY, Agt.

LARGE ATTENDANCE

In Other States—Why Not Here?

Ohio, Illinois, Indiana, three states immediately North of us have an attendance of from 1,000 to 2,000 delegates at their state conventions. Kentucky has never had as many as 500. Why is this? Is it a lack of interest, or is it a lack of information as to the real value of these conventions? Here is another fact in those states: The enrollment in each school, on the average, is equal to or a little above the church membership. In Kentucky the average is little if any above half of this. Still another fact: In those States about one-half of all white Protestant children of school age are enrolled in the Sunday schools. In Kentucky only about one-fifth of these are enrolled. These are facts that should give us the deepest concern. In those states every county is organized, and the state association is looked upon by all denominations as one of the most important factors in Sunday school progress, and it is given their hearty support. In Kentucky we

have about 2 strong, 45 good, 2 week and 29 normal organizations. Isn't it time Kentucky was availing itself of this strong organization? We are to discuss at Hopkinsville every phase of Sunday school work, and in the light of these facts, lay plans for future work. Will not every Sunday school in the state send at least one representative to Hopkinsville to help us solve the tremendous problem of bringing into the Sunday school, to Christ, and into the church the 500,000 white Protestant boys and girls between the ages of six and twenty in Kentucky who are not in any Sunday school? If you don't know of the great work the State Association is doing for the Sunday school interests of our beloved state, write to E. A. Fox, General Secretary, Louisville, Ky.

"Why is it," was asked by a prominent citizen the other day, we don't have more factories and institutions that give employment to home labor? The answer was, Do you buy every article you can in Hopkinsville? Well, no, my wife did buy a steel cooking range from a gentleman from St. Louis who had them in a wagon, and I ordered a suit of clothes because I thought it some cheaper than I could get it at home. With these few exceptions and maybe some minor things, I get all at home. Well my friend you have answered why Hopkinsville don't have more industries better than I can tell you.
